

Project #5

March 5, 2008

Figure/Ground Balance (one part only)

Create a **visual balance** between the additive (black) and existent (white) visual areas.

When viewing the design the viewer must be able to read **each shape** as a positive/dominant element.

The number of shapes is limited to **six** black pieces to ensure a graphic division of the groundsheet.

- **8.5 x 11 groundsheet (white)**
- **No more than six shapes (black)**
- **B & W (both) read as positive space**
- **Visual balance must exist between B & W**
- **Name, Project #, time on the back of groundsheet**
- **Read direction on the back of groundsheet**
